PROTOSPIEL ONLINE

There's panic at the Pâtisserie!

The shop is in need of a new lead baker and there can only be one. You must prove your mastery of marzipan by fulfilling customer orders as carefully as possible. There's just one problem; you need to work together to keep the bakery in business.

With a little help from the shop apprentice, you and your colleagues will gather the perfect combination of cake and filling to construct your faultless fondant masterpiece together... or they'll leave you with just the crumbs.

Draft cake tiers and fillings to assemble your creations. Coordinate with and against your opponents as you fulfill orders. There's no time for tears. It's cake-o'clock!

On your turn...

Move the apprentice

and...

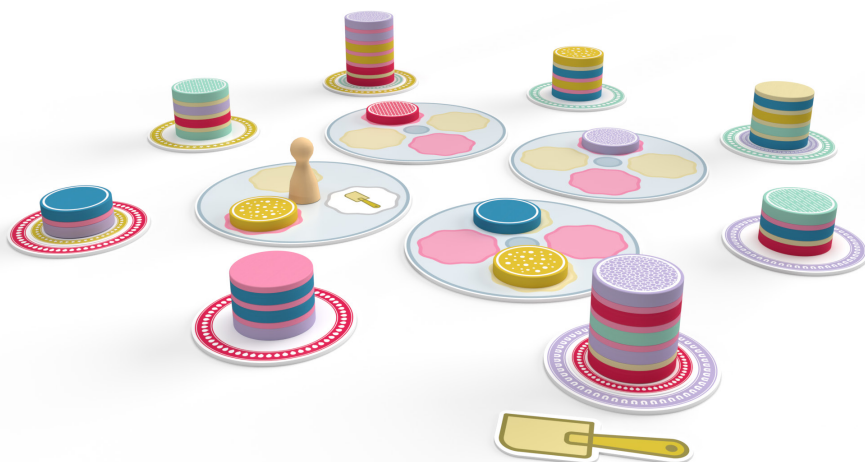

**Draft tiers
and fillings**

Then...

**Build cakes
with your opponents**
