There's panic at the Pâtisserie!

The shop needs a new lead baker and you must prove your mastery of marzipan by fulfilling customer orders. There's just one catch; you need to work together to keep the bakery in business.

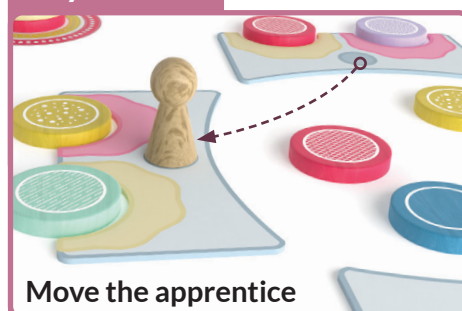

Draft cake tiers and fillings to assemble beautiful miniature cakes with the bakers seated next to you. Bakers are judged on all their creations so keep that sabotage under control, Chef!

Will you and your colleagues negotiate and build your way to victory or will they leave you with just the crumbs?

There's no time for tears. It's cake-o'clock!
